~~SECRET~~

The Director of Central Intelligence
Washington, D.C. 20505

National Intelligence Council

NIC 03131-86
21 July 1986

MEMORANDUM FOR: Director of Central Intelligence

FROM: MG David W. Einzel, Jr.
National Intelligence Officer at Large

SUBJECT: Background Material for 24 July Meeting with
Chairman, Nuclear Regulatory Commission

1. [REDACTED]

[REDACTED] the National Intelligence Council and the Central Intelligence Agency, respectively, make intelligence data available to the NRC, in support of the NRC's statutory obligations in nuclear licensing and safeguards.

25X1

2. In summary, the NRC receives selected finished intelligence reports and other unevaluated DO-produced reports, that are considered by the NIO at Large, or the DDI, to be relevant to the NRC "responsibilities for licensing exports of nuclear materials and facilities and for provision and maintenance of safeguards against threats, thefts, and sabotage involving NRC-licensed US nuclear facilities and materials."

3. In addition to provision of hard-copy materials (on short-term loan, only, in the case of DO-produced unevaluated reports), both the office of the NIO at Large, and analysts from the DDI/OSWR participate in occasional meetings with NRC officials on selected nuclear issues. We participate, for example, with State in an annual "Executive Branch Briefing" for the Commissioners on nuclear proliferation, and NRC officials have attended special summer seminars on proliferation sponsored by the NIO at Large. Liaison with NRC, and the transfer of intelligence data, are facilitated by regular visits to CIA Headquarters by an NRC representative, until recently Ms. Janice Dunn Lee, now Special Assistant to the NRC Chairman.

Chairman, Nuclear Regulatory Commission

4. These interactions and exchanges with the NRC have worked well. The NRC appears satisfied with the support that they have received, and the NRC has been highly responsible in their handling of sensitive intelligence data.
